

Keeping your NEW EverWhite board spotless is effortless. Just follow these simple care and use instructions.

CLEANING YOUR EVERWHITE BOARD: To keep your EverWhite board looking new for years to come, simply clean the surface periodically with water or regular household glass cleaner. No expensive dry erase board cleaners are required. For daily erasing, we recommend using our washable EverCloth. Learn more about the EverCloth at www.everproducts.com.

REMOVING PERMANENT MARKER INK: Permanent marker ink can be easily removed from the EverWhite surface. Using a regular dry erase marker, simply write over the permanent marker graffiti. Then, erase as usual. The permanent marker ink will be completely removed — Guaranteed.

To remove permanent marker ink from a larger portion of the EverWhite surface, use a solvent-based, non-abrasive cleaner to safely and easily remove all the permanent ink.

PLEASE NOTE: Do not use abrasive cleaners or magnets with sharp edges on the EverWhite boards because they will cause damage to the surface. (Also, refrain from sliding sharp magnets on the EverWhite surface.)
